

Project Design Phase
Problem – Solution Fit Template

Date	25 June 2026
Team ID	
Project Name	Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Choices and Habits
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Define the Customer	1. CUSTOMER SEGMENT(S) Who is your customer? - Online food orderers (18–45 years) - Working professionals & students - Families & individuals - Food delivery app users - Restaurants & food outlets	CS	6. CUSTOMER CONSTRAINTS What prevents your customers from getting better results or a better experience? - Limited time to cook / go out - Too many options – difficult to choose - Delivery time delays - Unhealthy eating habits - Lack of personalized recommendations - High delivery charges & hidden costs	CC	5. AVAILABLE SOLUTIONS What are the existing solutions? - Food delivery apps (Swiggy, Zomato, Uber Eats, etc.) - Restaurant websites & mobile apps - Social media food communities & blogs - Online reviews & rating platforms - Meal kit subscription services	AS
	2. JOBS-TO-BE-DONE / PROBLEMS What problems are your customers trying to solve? What tasks do they find difficult? - Finding the right food / restaurant - Comparing prices, ratings & delivery time - Healthy food choices - Tracking orders in real-time - Discovering trending & popular foods - Managing budget while ordering	J2P	9. PROBLEM ROOT CAUSE What is the fundamental cause behind these problems? - Information overload & unstructured data - Lack of personalized insights - No clear understanding of consumer trends - Scattered reviews & ratings - Irregular eating & spending patterns	RC	7. BEHAVIOUR How do your customers currently behave to solve the problem? - Browse multiple apps & websites - Rely on ratings & reviews - Choose based on offers & discounts - Order frequently during busy hours - Repeat past orders - Try based on recommendations from friends	BE
Focus on the Solution	3. TRIGGERS What triggers the customer to act? What makes them start searching / ordering? - Hunger / Cravings - No time to cook - Special occasions / Get-togethers - Offers & Discounts - Suggestions from friends / social media	TR	10. YOUR SOLUTION What is your solution to the problem? How will it help your customers? - Centralized platform for food ordering & trend analysis - Personalized food & restaurant recommendations - Consumer behaviour & trend insights using data - Healthy food suggestions & meal tracking - Interactive dashboards & reports (Tableau) - Real-time order tracking & alerts - Budget-friendly suggestions & offers	SL	8. CHANGE(S) OF BEHAVIOUR How will the customer behave differently after using your solution? - Make informed food choices - Save time in selecting & ordering - Eat healthier with better suggestions - Track spending & order history - Discover trending foods & restaurants - More satisfied ordering experience	CH
	4. EXISTING SOLUTIONS / ALTS How do customers currently try to solve the problem? - Using food delivery apps - Calling restaurants directly - Checking reviews on social media - Searching on Google / YouTube - Asking friends & family for suggestions	EM
